# Anish Roy

I am a final year undergrad and a passionate web developer creating visually appealing, user-friendly websites and high performance web servers. Knowledge in React, CSS, and NodeJS. Can write code in JavaScript, Java, Python. I am a quick learner who enjoys the art of development. Learning new technologies has always piqued my interest.

Pune - Maharashtra,
India

## EDUCATION

### BCA — Bachelors in Computer Applications
Symbiosis Institute of Computer Studies and Research, Pune
August 2020 - PRESENT       8.1 CGPA

### All India Senior School Certificate Examination (+2)
Army Public School, Binnaguri (CBSE)
April 2018 - April 2020       84.6 Percentage

## PROJECTS

### API Lab
- A user friendly website to **test public APIs on the browser itself**
- **Features** - Supports multiple HTTP methods, displays response metadata(size, time and status), saves history
- **Technologies Used** - React, TypeScript, IndexedDB, Axios

### Page Like
- A simple plug & play like button **widget** for websites.
- **Features** - Serverless, plug and play
- **Technologies Used** - Express JS, Prisma, SCSS

### Fitness Coach
- User friendly application on **Alexa**, which enables getting exercise instructions and motivation using voice commands.
- **Features** - Easy to use, huge dataset, fuzzy match enabled search
- **Technologies Used** - Node JS, Alexa ASK-SDK

### react-liquidswipe
- A open-source react component build on top of react-spring and react-use-gesture that improves UX by enabling liquid swipe
- **Features** - Responsive, 153kB size, Gestures Enabled
- **Technologies Used** - react-spring, react-use-gesture, rollup

### Covid Vaccine Tracker
- A user friendly website to test public APIs on the browser itself
- **Features** - Supports multiple HTTP methods, displays response metadata(size, time and status), saves history
- **Technologies Used** - React, TypeScript, IndexedDB, Axios

### Secured Python CRUD App
- A secured Python backend developed and deployed keeping security as a first priority.
- **Features** - Secure, Supports HTTPS, Authentication
- **Technologies Used** - Python, Flask, MySQL, Nginx, JWT

## SKILLS

**Programming Languages**
Javascript, Java, Python, SQL, Bash, Typescript

**Technologies**
React JS, Node JS, Next JS, GraphQL, ExpressJS, HTML, CSS, SCSS

**Databases**
MySQL, MongoDB, Firebase Firestore

**Tools/ Others**
Git, GitHub, Linux, Docker, Azure, Firebase, Figma

## EXPERIENCE

### ISKCON
Pune — Backend Developer
February 2022 - April 2022

### Studious Media Agency
Remote — Frontend Web Developer
July 2022 - September 2022

### Craft It Yourself
Pune— Full Stack Developer
September 2022 - PRESENT

## CERTIFICATES AND ACHIEVEMENTS

### AZ-900: Microsoft Azure Fundamentals (06/2022)

### Full Stack MERN Bootcamp (02/2022)

### MongoDB for JS Developers (08/2022)

### JavaScript Certification (08/2021)

### React Certificate (08/2021)

### SQL Certificate (09/2021)

### Java Certificate (09/2021)

### Python Certificate (09/2021)

### Hadoop Programming - Level 1 (10/2022)
